

MEKALA THARUN KURUMA

Backend & AI/ML Software Engineer

Hyderabad, Telangana, India · +91 91778 98761 · mekalatharun543@gmail.com ·
linkedin.com/in/tharunmekala · github.com/melakatharun

Computer Science Engineering student with hands-on experience in Python, backend development, REST APIs, databases, and web development. Built practical software projects including a Job Board Platform, Restaurant Management System, and URL Shortener. Currently developing GreenMind, an AI-powered AgriTech final-year project focused on crop disease detection and intelligent recommendations. Seeking entry-level Software Engineer, Python Backend, or AI/ML opportunities.

SKILLS

Backend	FastAPI, Django, Node.js, Express.js, REST APIs
Frontend	HTML, CSS, JavaScript, React.js
Databases	SQL, MongoDB, PostgreSQL, DBMS
Foundations	Data Structures & Algorithms, OOP, Database Management
AI / ML	Machine Learning, AI/ML Integration
Tools	Git, GitHub, VS Code, Postman
Language	Python

PROJECTS

GreenMind — AI-Powered AgriTech Platform [IN PROGRESS]

Final-year project · Currently in development

- Developing an AI-powered AgriTech platform to help farmers identify crop diseases and receive intelligent recommendations.
- Exploring machine learning, image analysis, backend APIs, and modern web technologies to address agricultural challenges.

Job Board Platform

CodeAlpha Backend Development Internship · September 2026 · Python, Django, Django REST Framework

- Developed a RESTful Job Board Platform with separate candidate and employer workflows for job posting, applications, and application tracking.
- Implemented JWT authentication, candidate/employer profiles, resume uploads, job search and filtering, duplicate application prevention, and application status management.
- Built REST APIs for job listings, applications, notifications, and status updates, and tested end-to-end workflows using Postman.

Restaurant Management System Backend

CodeAlpha Backend Development Internship · September 2026 · Node.js, Express.js, PostgreSQL, Prisma

- Developed a RESTful backend API for managing menus, tables, reservations, orders, inventory, authentication, and reports.
- Implemented JWT authentication, role-based authorization, bcrypt password hashing, and Zod request validation with centralized error handling.
- Built transaction-based order processing with automatic order total calculation and inventory deduction, and tested API workflows using Postman.

URL Shortener

- Developed a web application that converts long URLs into short, shareable links.
- Implemented URL processing and efficient link management.

EXPERIENCE

Artificial Intelligence Intern — InternzLearn

2025

- Gained practical exposure to artificial intelligence concepts and applications.
- Worked on AI-related tasks and project development; applied AI concepts to practical problem-solving scenarios.

ServiceNow Virtual Internship — ITSM & Workflow Automation

- Gained practical exposure to IT Service Management (ITSM) concepts and processes.
- Learned ServiceNow fundamentals, workflow automation, and enterprise ITSM operations.

EDUCATION

B.Tech, Computer Science and Engineering

CGPA
7.24/10

TKR College of Engineering and Technology, Hyderabad · 2023–2027

Intermediate (Class XII)

84%

Chaitanya Junior College, Balapur

Secondary School (Class X)

GPA 10/10

Lord's Talent High School

CERTIFICATIONS & ACHIEVEMENTS

Certified Implementation Specialist — Data Foundations (CMDB and CSDM), ServiceNow	Jun 2026
Data Analytics with Python — NPTEL	
Certificate of Excellence — 1st Place, Webathon, TKR College of Engineering and Technology	Mar 2025
Full Stack Development Workshop — IIT Hyderabad	Feb 2025
Certificate of Participation — 36-Hour National-Level Hackathon, TKR College of Engineering and Technology	2026
Webathon Coordinator — Certificate of Presentation
